DETAILED ACTION

1. Claims 1-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morse (6,546,757) and Kilian et al (5,622,750), Schultz (3,785,722) or Flamenbaum et al (3,806,570).

The claims are rejected for the reasons given in the previous Office Action, mailed 9-17-2003.

2. Applicant's arguments have been considered but are deemed unpersuasive of patentability.

While Morse may be silent as to the prevention of crystallization, it is a notoriously well known fact that in order for glass to function as an optical fiber such prevention is necessary. This fact as already noted, as admitted to by Applicant on page 3 of the instant specification and by Kilian et al and Schultz. In regard to the arguments concerning the teachings of Kilian et al and Schultz: one of ordinary skill in the art would be motivated to seek the basic properties or parameters of glass that would avoid crystallization. Such properties are basic to glass irrespective of the final form of the optical glass. Thus, the teachings of Kilian et al and Schultz are relevant to Morse. The same is true of Flamenbaum et al's teaching. The prior art references are not read alone in a vacuum.

It is further urged that the He atmosphere and the use of vacuum is not shown in any of the references cited by Examiner. The use of He and vacuum is notoriously well known in the art and contrary to Applicant's assertion, **DeLuca (3,933,454)** was cited to evidence this fact, see section 2, page 2 of the previous Office Action.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
